

I am delighted to announce a new training opportunity - ***the pattern as our inspiration*** – starting this autumn 2011.

This is a 6 day course aimed at homeopaths and student homeopaths who wish to prescribe remedies from the periodic table of elements with greater confidence. I will be sharing my understanding of Jan Scholten's methodology and demonstrating how to move fluidly around the system, differentiating the series and stages in order to uniquely locate the simillimum.

Grounded in classical philosophy, and drawing on my extensive library of video cases, I aim to illustrate how we are able to prescribe elements from the periodic system that in particular address many of the chronic nebulous conditions we are seeing increasingly in our consulting rooms. An in-depth exploration of the lanthanides series of metals and their combining salts will act as a springboard to further our understanding of the stages of the periodic table. Study of the sequence of the elements also helps us to perceive the pattern within this wonderful model of human chemistry. It allows us to more fully utilise the healing potential of all the remedies, including the lesser-known radioactive elements and noble gases.

***It is a fresh and innovative approach designed to breathe life into the periodic table – a template for healing that allows us to prescribe at the deepest level of the life story***

I've tried to match the passion and energy of the course in my choice of teaching venue. [The People's History Museum](#), situated in the heart of Manchester, re-opened in 2010 after an award-winning refurbishment and offers a unique and inspiring environment in which to learn – “a venue for the meeting of minds” with brand new conference facilities.

Mindful of financial pressures though, I've tried to keep the attendance costs reasonable - £420 with a concessions rate (for those who have attended my previous courses and/or trainee homeopaths) of £300 for the 6 day course.

I hope this fires your imagination – if you would like to find out more or simply request a booking form please do get in touch via the email address below .

Warm wishes

Jackie McTaggart
